

NCCER PIPEFITTING LEVEL 3

March 10 – August 27, 2015

Tu/Thurs, 5:30 PM – 8:30 PM

Baton Rouge Community College – Pipefitting Level 3 Program

Trainees will learn fundamental skills needed to show mastery in pipefitting applications. This course utilizes the construction industry designed National Center for Construction Education and Research (NCCER) curricula for Pipefitting Level Three. Students will learn various topics such as rigging equipment, advanced trade math, motorized equipment II, field routing and vessel trim, and testing piping systems. The classes are a blend of theory, comprehension, and hands on training in real world applications.

To reserve a spot today, sign up at:

www.mybrcc.edu → under APPLY NOW → Skilled Craft Training → NCCER Pipefitting Level 3

Applicants must have completed the NCCER Core Curriculum, Pipefitting 1, and Pipefitting 2. Proof of completion required.
